

Just Passing Through

Acknowledgement of Training

I, the undersigned, acknowledge that on (date) _____, I attended a training session at the following facility:

(name) _____

(address) _____

(trainer) _____

This storm water training session presented information on industrial storm water discharges and what can be done to prevent or minimize contamination of storm water runoff from significant materials.

During this session, I viewed a video entitled *Just Passing Through, Storm Water Pollution Prevention.*

This video illustrated several Best Management Practices (BMPs) and good housekeeping measures that can prevent storm water contamination. It presented information about how I can play an active role in protecting the storm water runoff from this facility. I was given adequate time to ask questions about my particular job activities and how I can best conduct them in compliance with storm water discharge regulations.
