July 29, 2019

The Central West Virginia Regional Airport Authority would like to expand GA operations by construction of the a new 4-bay garage with line office, 2-story GA terminal expansion, ground distribution facility, customs facility, a secondary aeronautical educational school, Taxiway B rehabilitation, the expansion of the deicing pad on GA ramp, and a new perimeter fence.

Yeager Airport's General Aviation (GA) is located off of Eagle Mountain Road southeast of the commercial/terminal area in Charleston, West Virginia (WV). Runway access is provided by either Taxiway B or C to Runway 5-23. The GA area consists of a fixed base operator (FBO), T-hangars, and miscellaneous businesses equating to approximately twenty structures encompassing approximately 45.8 acres. The GA facility is located on top of a mountain that was flattened for the airport with surrounding woods and steep terrain.
