FOR IMMEDIATE RELEASE

# PRESS RELEASE

## AMERICAN AIRLINES RESUMING SERVICE BETWEEN YEAGER AIRPORT AND RONALD REAGAN WASHINGTON NATIONAL AIRPORT

American Airlines recently announced plans to resume nonstop daily service from Yeager Airport (CRW) to Ronald Reagan Washington National Airport (DCA), beginning Feb. 11. This service was temporarily paused last year due to a reduction in customer demand caused by the coronavirus (COVID-19) pandemic.

“2019 was one of our best years, in terms of passenger numbers, at Yeager Airport,” said Yeager Airport Director and CEO Nick Keller. “2020 had its challenges, but it’s a new year and it is exciting to see routes resuming at CRW.”

“As more customers begin to travel, American is eager to reconnect the Charleston region to the nation’s capital,” said Radney Robertson, Managing Director of DCA Operations for American. “In-airport and on board, our team has taken every effort to ensure the well-being of customers throughout their travels while offering more flexibility and choice than ever before.”

Flights are operated by a Bombardier CRJ-700, outfitted with 63 seats in a two-cabin configuration. Details include:

<b>Flight</b>	<b>Dept.</b>	<b>Dept. Time</b>	<b>Arr.</b>	<b>Arr. Time</b>
AA 5672	CRW	6:00 a.m. ET	DCA	7:11 a.m. ET
AA 5674	DCA	8:30 p.m. ET	CRW	9:35 p.m. ET

To make reservations for this, or any flight, please visit [yeagerairport.com](http://yeagerairport.com).

## American Airlines Commitment to Safety

American is committed to giving you peace of mind when you travel with us. That's why our planes receive electrostatic spraying once a week with an EPA-approved disinfectant. Plus, we're the first airline to treat our planes with SurfaceWise<sup>®</sup>2, a breakthrough coating that provides enhanced protection by sustained killing of 99.9% of viruses, including coronaviruses, on surfaces. We've rolled out the treatment across our fleet. High-touch and public areas like tray tables, seatbelt buckles, armrests, window shades, seatback screens, doors and overhead bin handles continue to be cleaned before every flight.

We also provide PURELL<sup>®</sup> Advanced Hand Sanitizer in our lounges and hub airports across the U.S. and work with Vanderbilt University Medical Center for guidance on health matters and our cleaning procedures.
